13<sup>th</sup> April 2026

### **PCDB Listing Notification – Boiler Applications**

From 1<sup>st</sup> April 2026, the review and processing of boiler applications will be handled solely by the SAP Product Listing team at BRE

During this transition period there is likely to be some delay to the timeline to list PCDB boiler applications.

We are working to minimise any impact on applications currently going through the review process and BRE will shortly be in contact with manufacturers directly.

For future boiler entries and any further information please contact:  
[saproductlisting@bregroup.com](mailto:saproductlisting@bregroup.com)
